

From small scale projects to bespoke builds, Parker Building collectively has over 40 years of experience in the industry, working to the highest standards and delivering exceptional quality.

With the experience, knowledge and skill to manage and supervise, our team of builders pride itself on their reliability, innovation and transparency.

As a valued client, you will typically only deal with Luke through the tendering process right through to completion and handover.

With competitive pricing and honest communication, Parker Building works tirelessly to ensure all clients are confident that their build is in the right hands.

"The pride and passion displayed by Luke and his team during our recent renovations was second to none, with the high quality results speaking for themselves. The clear communication of price and timeline, with the added bonus of expert suggestions / recommendations made the entire experience a stress free, enjoyable one. Could not recommend highly enough."

" Luke and his team were contracted for a complete renovation and project management end to end from planning to handing over the keys.

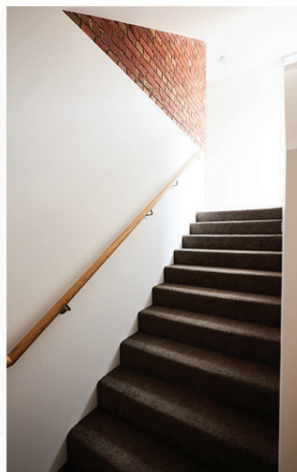

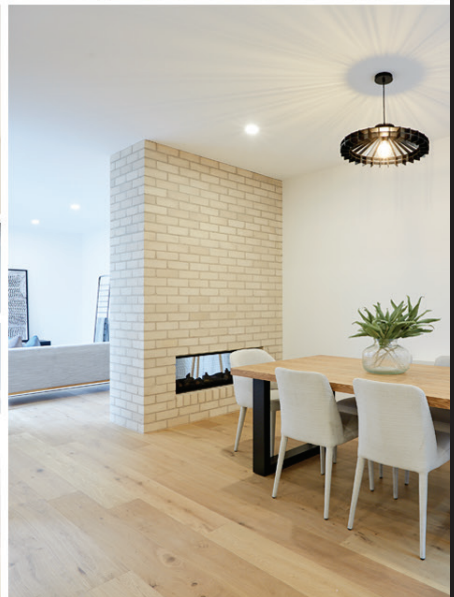

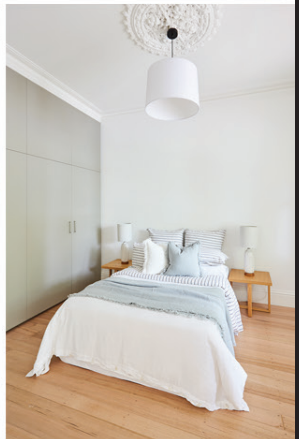

The job was based in inner city Melbourne on a double fronted Victorian home. With the exception of the front rooms the house was completely levelled and rebuilt. The most important aspects of the management were dealing with heritage and council and predicting unforeseen issues arising on an old block. Luke's attention to detail and quality is unsurpassed in all my time of investing and renovating Victorian homes.

As well, the project was completed within cost and variations agreed without any surprises. Not least of all his courtesy politeness and ensuring all matters were responded and attended with good answers and results.

The final product is a beautiful home that is at award winning standard. I recommend Luke and his team unreservedly. "

" Luke and his team are a great crew to work with.

They have excellent attention to detail, good communication skills and are willing to work with you to create what is your dream.

We now run a highly successful BNB that is a result of their creative energy and building skills"

Positive: Quality, Value

" Luke and the team built a major renovation to our home in Seaford.

It was an ambitious design with challenging engineering, a multitude of materials and of course a tight budget!

The communication, attention to detail and the quality of the work was beyond exceptional.

We were entirely happy with the work and would definitely work with them again, and have recommended them to many friends already."
